19TH CENTURY ENGLISH REGENCY MAHOGANY CONSOLE TABLE WITH CENTRAL DRAWER

$12,600

This early 19th century English Regency console table is crafted in mahogany and presents a strong, architectural form typical of the period. The rectangular top features a subtly shaped front edge and a finely figured surface, with attractive grain throughout. Below, the frieze is fitted with a central drawer, flanked by carved and reeded panels and rosette motifs at the corners, adding restrained classical ornament.

The table is raised on four square, fluted legs terminating in stepped bases, lending the piece both visual weight and structural stability. The proportions are generous, allowing the table to function comfortably as a console, serving table, or side table in an entryway, dining room, or living space.

Construction is solid and consistent with 19th-century English furniture-making, with a sturdy understructure and well-balanced stance. The warm tone of the mahogany and the crisp carving details make this a versatile piece, suitable for traditional, classical, or layered interiors.

A well-executed and practical example of English 19th-century furniture, combining classical detailing with everyday usability.

Height: 35.5 in (90.17 cm)

Width: 69.25 in (175.9 cm)
