19TH CENTURY ENGLISH WALNUT SIDE TABLE WITH DRAWER AND RAISED GALLERY TOP

$2,250

A 19th-century English walnut side table with a compact rectangular form, single drawer, raised gallery top, and slender tapering legs. The table has a warm walnut finish with visible grain, age-related surface markings, and a mellow patina consistent with antique use. Its small scale makes it well suited for use as a side table, lamp table, occasional table, or bedside table.

The rectangular top is framed by a low raised gallery edge, giving the piece a more finished and practical surface while maintaining a light profile. Below, the single drawer is fitted with two brass pulls and a shaped brass escutcheon, offering useful storage for small items. The apron has a shaped scalloped profile, adding subtle decorative detail without making the table overly ornate.

The drawer interior has been lined in neutral fabric, giving it a clean presentation for modern use. The piece retains the character expected of a 19th-century English country house table, with old marks, small losses, and surface wear visible throughout. Its proportions, useful drawer, and restrained decorative details make it easy to place in both traditional and transitional interiors.
