19TH CENTURY ENGLISH WALNUT UPHOLSTERED BENCH WITH FIVE TURNED LEGS

$5,995

A 19th-century English walnut bench with a long upholstered seat, five turned legs, and a clean rectangular form well suited for both traditional and transitional interiors. The bench features a warm walnut frame with visible grain and patina, paired with a later neutral upholstered seat that gives the piece a lighter and more updated presentation.

The elongated proportions make it particularly versatile for placement at the foot of a bed, in an entryway, along a hallway, or as additional seating in a living room or dressing area. The frame is raised on five turned walnut legs, including a central support leg for added stability across the long span. The restrained decoration and balanced proportions reflect the practical elegance commonly associated with English 19th-century furniture.

The seat has been newly upholstered in a textured neutral linen-style fabric with softly rounded corners and a tailored appearance that complements the walnut frame without overpowering it. The wood surface shows expected age-related wear, finish variation, and patina consistent with antique use, contributing to the character of the piece.
