19TH CENTURY FRENCH WALNUT SIDE TABLE WITH DRAWER AND CARVED DIAMOND ACCENTS

$3,750

A French walnut side table from the 19th century, combining simple lines with refined carved details. The square top rests above a single drawer, fitted with its original carved wooden pull. The drawer front is plain, its restraint allowing the geometric accents on the legs to stand out: each leg features a carved diamond motif at the top, adding depth and subtle ornamentation to the otherwise clean design.

The legs are subtly faceted, giving the table a light, balanced stance. The walnut's fine grain and warm patina enhance the understated elegance of the piece, while the straightforward construction reflects traditional French craftsmanship of the 19th century.

Versatile in use, this table can serve as a side or end table, a nightstand, or a small accent in a hallway. Its single drawer provides practical storage, while the carved details and warm walnut tones lend character and quiet sophistication to both period and contemporary interiors.
