BIEDERMEIER WALNUT CHEST WITH EBONIZED ACCENTS AND FIGURAL MOUNTS, 19TH CENTURY

$5,995

A refined 19th-century Biedermeier chest of drawers in walnut, showcasing the clean lines and restrained elegance characteristic of the style. This three-drawer chest is crafted with a bookmatched walnut veneer that reveals a warm, honeyed grain. The linear profile is subtly softened by the slightly overhanging top and understated edges.

Each of the three drawers features diamond-shaped keyhole escutcheons and sits flush within the case, contributing to the piece's architectural balance. Carved ebonized mounts in the form of female busts appear at the top of each front stile, adding a neoclassical flourish with quiet drama. Ebonized feet and corner blocks further anchor the chest with visual contrast.

Compact and versatile, this Biedermeier chest works equally well as a bedroom piece, an entryway statement, or as a storage solution in a refined living area. Its harmonious proportions and material elegance make it a timeless addition to both period and contemporary interiors.
