CONTEMPORARY COFFEE TABLE MADE WITH ANTIQUE DOOR FRAGMENT ON CUSTOM IRON BASE

$4,800

A contemporary coffee table made from an antique wooden fragment door with raised motifs under glass and mounted on a custom black iron base. Newly made in the USA, this coffee table features a beautifully rustic rectangular top made from an antique door fragment showcasing recessed panels accented with raised motifs. The patina is great and the finish natural, allowing us to experience the great character of the piece. This weathered top is secured under a rectangular glass panel and is mounted on a black iron custom-made base. Four straight legs are connected to one another through an H-Form cross stretcher giving an even stronger stability to the ensemble. With its mix of new and old as well as its rustic appeal, this contemporary iron and wood coffee table will bring an undeniable touch of authenticity to any home, whether placed in a living room, sun room or under a covered patio!
