ENGLISH 19TH CENTURY MAHOGANY HALL TABLE WITH DRAWER AND SHELVES

$4,500

An English mahogany hall table from the 19th century, featuring a tall, slender silhouette and a particularly compact footprint. The upper section is designed with an open compartment surmounted by a narrow shelf and shaped gallery. Gracefully curved sides rise toward the scalloped back, adding a decorative note to the otherwise restrained design.

Below, the rectangular surface displays the warm color and attractive figuring of the mahogany. A single shallow drawer fitted with a small brass pull provides convenient storage for keys and other small necessities. The table is raised on four long, straight legs joined by a lower shelf, its concave front edge introducing a subtle curve to the linear base.

The mahogany has developed a warm, varied patina, with particularly attractive grain visible along the sides of the upper section. Measuring just 16.5 inches wide and 12.5 inches deep, this unusual 19th century English table is particularly well suited for placement against a wall in an entrance hall, narrow passage or other space where its vertical storage and diminutive footprint can be appreciated.
