ENGLISH 19TH CENTURY OAK AND WALNUT SIDEBOARD WITH CUPBOARDS

$9,600

An English 19th-century oak and walnut sideboard, designed with a handsome breakfront form, warm golden-brown patina, and generous storage. The front is arranged with two paneled cupboard doors flanking a central bank of drawers, creating a balanced and architectural façade. Brass knob pulls, small keyhole escutcheons, molded drawer fronts, paneled doors, and shaped apron details give the piece a quietly formal country house character.

The combination of oak and walnut creates attractive tonal variation across the surface, with visible grain, darker knots, and age-related markings that add warmth and depth. The top has a polished, practical surface, while the lower cupboards and drawers offer useful storage for dining room linens, serving pieces, tableware, or household objects. The sideboard would work well in a dining room, kitchen, entry hall, library, or living room, where its long proportions and antique wood surface can anchor the space.

Substantial without being overly ornate, this 19th-century English sideboard has the practical strength and visual warmth associated with traditional country furniture. The façade includes three dummy drawers, maintaining the symmetry of the design while preserving the cabinet's useful storage arrangement.
