ENGLISH 19TH CENTURY OAK UPHOLSTERED BENCH WITH TURNED LEGS

$3,995

This English 19th-century bench presents a straightforward, well-proportioned form rooted in traditional craftsmanship. Constructed in oak, the frame highlights the material's natural depth and durability, with a rich tone that contrasts effectively against the neutral upholstered seat.

The rectangular seat has been recently recovered in a textured fabric and finished with a line of brass nailhead trim, adding a subtle decorative edge without distracting from the structure. The apron is clean and architectural, with simple recessed panel details at the corners that give the piece quiet definition.

The legs are turned and robust, with a sequence of baluster and ring details that provide rhythm and visual weight. Their proportions anchor the bench firmly, making it suitable for regular use while maintaining a balanced silhouette.

Versatile in function, this bench works well at the foot of a bed, in an entryway, or as additional seating along a wall. Its restrained design allows it to integrate easily into a range of interiors, from traditional English settings to more pared-back or transitional spaces.
