ENGLISH 19TH CENTURY WALNUT SIDE TABLE WITH SINGLE DRAWER AND CABRIOLE LEGS

$3,750

An English walnut side table from the 19th century, combining refined craftsmanship with a touch of rustic charm. The rectangular top is framed by a delicate inlaid border, its surface displaying the natural warmth and depth of the walnut grain. Below, a single drawer fitted with brass ring pulls provides both utility and elegance, set into a shaped apron that softens the lines of the piece. The table rests on four cabriole legs, their graceful curves finishing in scrolled feet that lend a sense of lightness and poise.

This versatile table would have originally served as a useful accent in a refined English interior, and today it retains that same adaptability. It may function as a side table in a living room, an occasional table in a hallway, or even a refined bedside companion. With its handsome proportions, subtle detailing, and warm patina developed over time, this piece blends seamlessly into both traditional and eclectic settings, offering both practicality and understated beauty.
