ENGLISH 19TH CENTURY WALNUT UPHOLSTERED BENCH WITH TURNED LEGS

$4,500

This refined English bench dates to the 19th century and is crafted with a solid walnut frame, distinguished by its finely turned legs and well-balanced proportions. The rectangular seat has been newly upholstered in a neutral linen-toned fabric, offering a clean, understated surface that complements both traditional and more contemporary interiors. A line of classic nailhead trim runs along the lower edge of the upholstery, providing a subtle decorative finish without overpowering the form.

The turned walnut legs are crisply executed, with gentle tapering and ring detailing that reflect the craftsmanship of the period. Their warm patina shows natural variation in tone, adding depth and character while remaining visually restrained. The bench sits comfortably at a versatile height, making it suitable for use at the foot of a bed, in an entry hall, along a corridor, or as extra seating in a living space.

Unlike later revival pieces, this bench retains a pleasing lightness and clarity of line, with no unnecessary ornamentation. The structure is sturdy and well constructed, while the updated upholstery allows it to integrate easily into a range of interiors without sacrificing its antique character.

A practical and elegant example of 19th-century English seating furniture, offering both everyday functionality and enduring decorative appeal.

Height: 19.5 in (49.53 cm)

Width: 40.5 in (102.87 cm)
