ENGLISH MAHOGANY BENCH WITH TURNED LEGS AND SCROLL ENDS, CIRCA 1940

$4,500

An English mahogany bench from around 1940, blending traditional design with a long, elegant form. The rectangular seat is flanked at each end by scroll-shaped arm rests, lending a decorative flourish that contrasts with the otherwise streamlined profile. Rich mahogany with a warm, polished patina showcases the natural grain, giving depth and character to the surface.

The bench is supported by six turned legs, each tapering gently to the floor, providing both stability and visual balance to its extended length. The craftsmanship reflects early 20th-century English furniture-making traditions, with careful joinery and proportions designed for comfort and style. Measuring over 71 inches long, it offers generous seating for an entryway, hallway, or the foot of a bed.

Its combination of classic detailing and durable hardwood construction makes it as functional as it is refined. Whether placed in a traditional interior or used as an accent in a more contemporary setting, this mahogany bench brings a touch of English charm and timeless appeal.
