ENGLISH MIDCENTURY NICKEL BELL LANTERN WITH GLASS DOME AND THREE LIGHTS

$2,100

An elegant English bell jar lantern in polished nickel, dating to the mid-20th century and distinguished by its refined silhouette and understated classical details. The piece features a domed clear glass top suspended by three decorative chains, which support a large handblown bell-shaped glass body enclosing a three-light candelabra cluster. The candle-style fittings are mounted on a turned central stem, adding balance and architectural structure to the interior.

The stepped finial at the base and the ring at the top further reinforce the neoclassical inspiration, while the nickel-plated hardware lends a more contemporary, transitional appeal. This fixture has been newly wired with three standard-base sockets and is ready for installation in US interiors.

Measuring 26 inches in height and 12 inches in diameter, this bell lantern is ideally proportioned for use in an entryway, stairwell, or powder room. Its restrained palette and timeless profile allow it to blend seamlessly in both traditional and modern settings, offering ambient illumination and elegant presence without visual heaviness. Several lanterns are available, making them an excellent option for grouped installations or multi-room projects.

Height: 26 in (66.04 cm)

Diameter: 12 in (30.48 cm)
