# ENGLISH REGENCY MAHOGANY BENCH WITH SCROLL ARMS AND UPHOLSTERED SEAT

## $5,500

This English Regency mahogany bench from the early 19th century is a timeless accent with classical elegance and restrained detailing. Designed with scrolled arms that curve in a fluid S-shape, the bench combines architectural form with understated comfort. The frame is crafted from rich, dark mahogany, now aged to a mellow patina that contrasts beautifully with the updated neutral-toned upholstery. The tight seat and arm panels are upholstered in a finely textured, natural linen fabric that feels appropriate to the period without overshadowing the piece's silhouette.

Turned and reeded legs end in brass casters, adding both mobility and a touch of refinement—ideal for use at the foot of a bed, in an entryway, or beneath a window. The low seat height (15.5 inches) suggests a design once intended for dressing rooms or parlors, offering occasional seating with poise and presence. While classically Regency in design, the bench's graceful scale and sculptural sides translate easily into modern interiors where antique forms are valued for their quiet strength.
