FRENCH GILTWOOD MIDCENTURY TWO-LAYER SUNBURST MIRROR WITH POLYCHROME ACCENTS

$3,400

A French Midcentury sunburst two-layer mirror with polychrome accents. Radiating with a celestial charm, this French Midcentury Sunburst Mirror is an ethereal vision that transports one to the heavens. Embodying the vibrant energies of the sun, the mirror features a dynamic two-layer design that is both captivating and poetic. At the heart of this creation lies a circular mirror plate, which reflects not just images but the soul of the space it inhabits. This central element is ensconced within an inner frame, reminiscent of billowing clouds carved with expert finesse. The cloud-inspired inner frame, a sanctuary for the mirror, forms the bedrock from which wavy sun rays spring to life. These rays, in alternating colors of gold and earth tones, dance around the center like beams of light breaking through the clouds at dawn. Enveloping these wavy rays is an outer frame of straight golden sun rays, which adds an additional aura of majesty and grandeur.

Each ray, crafted with meticulous attention to detail, varies in height, creating a dynamic visual rhythm that seems to pulsate with life. Adding to the practicality, a hook at the back ensures easy installation, making this mirror not just a decorative piece but a testament to French artistry and creativity. In an era where mass production often eclipses individuality, this midcentury sunburst mirror stands as a symbol of unique expression. It is a conversation piece; it speaks in whispers and shouts about history, art, and nature. Place this mirror on any wall and watch the room come to life, as it casts not just light but a spell of timeless beauty. Whether your décor is modern, classic, or eclectic, this French Midcentury Sunburst Mirror is sure to be the crowning jewel in your collection.
