FRENCH LOUIS XV STYLE CARD TABLE WITH BROWN TOOLED LEATHER TOP AND PULL OUTS

$3,600

This French Louis XV style card table from the mid-20th century features a rectangular top with chamfered corners, decorated with brown tooled leather. The nicely scalloped apron present on all sides receives in its center a single drawer as well as four ingenious pull outs placed in each corner, perfectly crafted to accommodate drinks. The table is raised on four elegant cabriole legs. The leather top, combined with the convenient placement of the pull outs and curvy shape of the Louis XV lines, would make this French table circa 1950 a wonderful table for a card game, but could also be used as a side table.
