ITALIAN BAROQUE STYLE WALNUT CONSOLE TABLE WITH SHAPED STRETCHER, CIRCA 1800

$6,995

Crafted in Italy circa 1800, this walnut console table reflects the enduring influence of the Baroque style, with its sculptural silhouette, boldly scrolling legs, and shaped stretcher. The top is composed of a thick walnut plank, with a secondary board later added along one side — a period adjustment that slightly extends the surface width. The underside shows traditional pegged joinery, reinforcing the piece's early 19th-century construction.

The carved base features serpentine scroll legs with lyre influence, joined by a pierced stretcher with scalloped curves, and a cross brace that adds both visual interest and stability. The legs terminate in spherical feet, giving the piece a grounded, architectural presence. A small iron hook affixed beneath the top suggests a later domestic use, possibly in a hallway or entry setting.

With its warm, aged patina and expressive silhouette, this table works beautifully as a console, side table, or statement piece against a wall. Its provincial Baroque style lends historical character to both traditional and collected interiors.
