MIDCENTURY ITALIAN CYLINDRICAL MARBLE TABLE LAMP, REWIRED FOR THE USA

$3,750

An elegant Midcentury Italian table lamp crafted from a single cylindrical block of marble, showcasing a harmonious balance of form and natural material. The stone presents warm beige and cream tones, accented by subtle veining and organic variations that give the lamp both visual depth and a unique character. The polished surface enhances the marble's natural luster, while the clean, cylindrical silhouette reflects the streamlined aesthetic of mid-20th-century Italian design.

The lamp is topped with a brass socket, providing a gentle contrast to the marble's soft coloration. It has been professionally rewired for use in the USA, ensuring modern safety standards without compromising its vintage charm. At 22 inches in height, it is well-proportioned for placement on a side table, console, or desk, where it can serve equally well as a functional light source or a sculptural accent. With its timeless material, minimalist shape, and high-quality craftsmanship, this lamp embodies the enduring appeal of Italian modern design.

Height: 22 in (55.88 cm)
