PAIR OF ITALIAN MIDCENTURY RIBBED GREEN GLASS LAMPS WITH SILVER BASES, US WIRED

$3,750

This striking pair of Italian Midcentury table lamps brings sculptural presence and vibrant color to any interior. Crafted from thick, ribbed green glass, the cylindrical forms rise from round silvered metal bases and are capped with matching metal tops for a sleek, cohesive look. The bold verticality and saturated hue reflect the confident elegance of Italian design from the era. Both lamps have been professionally rewired for the USA and are ready to use.

The deep emerald glass catches and reflects light beautifully, while the ribbed detailing adds texture and dimension. These Midcentury glass lamps are ideal for anchoring a room—whether flanking a bed on vintage nightstands, adding color to a minimalist console, or bringing visual rhythm to a pair of side tables in a living room.

Their clean lines and classic materials make them versatile across a range of spaces, from midcentury-inspired interiors to more eclectic or contemporary environments. Whether lit or not, they serve as bold design statements, effortlessly blending form and function.
