PAIR OF LARGE IRON LANTERNS WITH FOUR LIGHTS AND ARCHITECTURAL DESIGN

$8,995

A striking pair of large-scale iron lanterns, newly made and designed with clean, architectural lines. Each lantern features a bold geometric frame with a peaked roof, creating a strong silhouette that blends historical reference with contemporary simplicity. Four interior candle-style lights are suspended from a central stem, offering balanced illumination and adding to the understated elegance of the design. Painted in a matte charcoal finish, these lanterns have a refined, neutral presence that complements a variety of spaces without overpowering them.

Ideal for indoor or covered outdoor spaces, this pair of lanterns is a perfect choice for an entryway, loggia, or even above a kitchen island when a dramatic and cohesive statement is desired. Their large scale and sculptural quality make them suited to anchor a room or highlight an architectural feature such as a tall ceiling or double-height stairwell. Whether used singly or as a pair, these lanterns bring timeless form and modern restraint to any setting, offering both function and style.
