PAIR OF MIDCENTURY ITALIAN UPHOLSTERED STOOLS WITH BLACK AND GOLD DÉCOR

$2,995

A pair of vintage Italian stools from the mid 20th century, with round upholstered seats, black paint and gilt accents. Created in Italy during the Midcentury period, each of this pair of stools features a circular top newly recovered with a double welt linen fabric whose neutral tones compliment the rest of the structure beautifully. Each stool is raised on four straight legs with slightly curving extremities, presenting a black painted structure contrasted with gilt accents in the front. The apron echoes this décor, in a manner creating a perfect visual continuity. With their clean lines and gold and black colors, this vintage pair of Italian stools from the mid 20th century period will bring a stylish touch of elegance to any home, perhaps displayed in a living room, bedroom or hallway.
