PAIR OF PINE TWISTED FINIALS ON TALL BASES MOUNTED AS TABLE LAMPS, USA WIRED

$3,750

A pair of natural pine finials from the 19th century with twisted motifs and traces of white paint, made into table lamps wired for the USA. This pair of table lamps, ingeniously crafted from 19th-century natural pine finials, combines historical charm with modern functionality. Each lamp features a twisted motif finial, still bearing traces of its original white paint, which adds to the rustic and distressed aesthetic. The finials are elegantly mounted on slender bases adorned with leaf motifs, enhancing their decorative appeal. Wired for the USA with single sockets, these lamps not only illuminate but also add a touch of antiquity to any room. The unique twist of the pine and the remnants of paint tell a story of their past, making these lamps not just functional lighting fixtures but also conversation pieces. Ideal for flanking a living room sofa, adorning bedside tables, or enhancing a study with a warm glow, they serve as both focal points and functional decor. Their historical character and artistic transformation make them a perfect choice for interiors that celebrate both history and craftsmanship.
