PAIR OF RUSTIC FRENCH WROUGHT IRON ROOSTER TABLE LAMPS ON CUSTOM LUCITE BASES

$4,200

A pair of French Turn of the Century wrought iron roosters made into table lamps with Lucite bases. This pair of rustic French wrought iron rooster sculptures, dating to circa 1900, has been thoughtfully transformed into modern table lamps. Each lamp is mounted on a sleek custom lucite base, perfectly balancing the rugged charm of the iron with contemporary elegance. The roosters, with their distinctive silhouette and textured detailing, showcase the craftsmanship of early 20th-century French artisans. Originally designed with flat backs, they are ideal for placement against a wall, making them a versatile lighting option for narrow consoles, sideboards, or entryway tables. The juxtaposition of the wrought iron's timeworn patina with the smooth clarity of the lucite base creates a stunning visual contrast. Whether illuminating a cozy reading nook or adding a statement to a rustic-inspired living room, these lamps bring character and a touch of French countryside charm to any space. Their unique design makes them a conversation starter, blending history and modernity effortlessly. Wired for the USA, these lamps are ready to bring both light and a sense of heritage to your home.
