SPANISH MIDCENTURY GILT METAL SUNBURST CHANDELIER WITH FROSTED GLASS

$2,650

A dramatic Spanish Midcentury sunburst light fixture, crafted in gilt hammered metal with striking sculptural presence. The radiating form takes inspiration from agave leaves or stylized botanical motifs, with layered, sharply pointed elements arranged in a dynamic circular composition.

At the center, a frosted glass diffuser softens the light from two internal bulbs, casting a warm, ambient glow while preserving the bold geometry of the form. The metal retains its rich, oxidized patina with golden tones and subtle surface texture, typical of Spanish lighting design from the 1950s–60s.

Professionally rewired for US use, this piece includes a matching domed canopy and chain for suspension. Measuring 21.5 inches in diameter and 4.75 inches high (excluding chain), it offers high visual impact without excess bulk — ideal for entryways, dining areas, or statement lighting in eclectic, Brutalist, or Hollywood Regency-inspired interiors. A rare and sculptural take on the classic sunburst, this Spanish fixture balances artisan texture with symmetrical intensity.

Height: 4.75 in (12.07 cm)

Diameter: 21.5 in (54.61 cm)
